

Linearity of the assay

 Nicolas Chomont

Updated date: Jun 25, 2021

An abbreviated version of this protocol was published in PLoS Pathogens in Feb 2019

Single-cell characterization and quantification of translation-competent viral reservoirs in treated and untreated HIV infection

DOI: [10.1371/journal.ppat.1007619](https://doi.org/10.1371/journal.ppat.1007619)

Detailed protocol

The HIV-Flow protocol can be found here:
